There are many things we don't know about what our post-recovery world will look like. But there is one thing we do know, that those who are more effective people, dependable teammates and choose to be leaders will fare better. ABC of Western Washington is pleased to offer a special three-hour session with ABC National President Mike Bellaman. In this informal but informative gathering, Mike will share perspectives from best-in-class leaders, authors and coaches about how to become a more effective person and leader. Hear what Mike has learned throughout his career in applying these methods and share with others your challenges and successes as you navigate through today's difficult world. This three-hour session will create the conditions for you to develop your own personal plan to achieve your professional goals and inspire you to become a more effective teammate and leader. Make the time! You won't regret it.
