Back by popular demand, ABC brings you the Business-2-Business Buffet, and this time we're holding it at Red Hook Brewery! Pick up a local beer and sit down with your fellow members for rounds of speed networking to discuss what you do best and what kind of business opportunities you are looking for.

ABC is focused on providing members with frequent opportunities to connect with one another to further establish working relationships and present a forum to learn from one another. This will be both a productive and pleasant way to make your business more successful!

Please bring at least 30 business cards, as you will have the chance to hand them out during the open networking reception, and again during the rounds of facilitated table networking sessions.
