

ABC OF WESTERN WASHINGTON SAFETY ALLIANCE 2024 Application

As part of ABC's continuing effort to provide safety education, training and support to its members, the ABC of Western Washington Safety Committee has developed and implemented the ABC Safety Alliance program. Our goal is to increase overall safety awareness and proficiency while providing a tool by which member safety programs can be measured for completeness, effectiveness, and compliance.

ABC Safety Alliance is a completely voluntary program that allows our members to work in concert with ABC-approved safety consultants to assess their overall safety programs while increasing the effectiveness of plans, policies and procedures. As always, our primary goal is to protect the health and safety of all persons by ensuring employers are providing a safe work environment for their employees, subcontractors, suppliers, or anyone else visiting their jobsites or workplace.

This comprehensive and aggressive program will assist your company in complying with the established industry and construction safety standards. This program is available to any qualifying ABC member.

Disclaimer: ABC of Western Washington and its approved safety consultants do not warrant that your safety program and/or practices will meet all DOSH/OSHA regulations.

Please complete the following information and submit it to the ABC Safety Department. Once your application has been received, we will contact you to schedule your audit. If you have any questions please call (425) 646-8000 or email our safety department at training@abcwestwa.org.
